

KICKSTARTER

pre-launch page

## THANK YOU FOR REVIEWING DEATHMANCER

*A personal note for reviewers, previewers, photographers and first necromancers.*

Dear reviewer,

Thank you for giving Deathmancer your time and attention. Sending a prototype into someone else's hands is exciting, nerve-wracking and meaningful, so I really do appreciate you learning the game, playing it properly, photographing it and sharing your thoughts online.

A showcase, first impressions piece, review, playthrough or BoardGameGeek review would help enormously. Deathmancer is listed on BGG at [boardgamegeek.com/boardgame/477741/deathmancer](https://boardgamegeek.com/boardgame/477741/deathmancer).

### PROTOTYPE ART

Some cards still carry prototype artwork and watermarking. Glen has not yet had the time or finances to finish every illustration before launch, and we are choosing to keep the final game human-led and artist-made rather than filling the gaps with disposable art.

Please use the finished pieces as the best indication of the final visual target. If possible, I would be grateful if incomplete pieces were not the main focus of key photographs. They do not need to be hidden; I would just rather the strongest images lead the story.

### RULES AND SUPPORT

Single-player rules are available from the Solobook button at [deathmancer.com](https://deathmancer.com). Three- and four-player games need the Gatekeeper and Chronos expansion decks.

The player card QR links to the scorekeeper, and the website has media/how-to material for convenience. Pen and paper is still perfectly respectable if you prefer to keep the table fully analogue.

Questions are very welcome by Deathmancer Instagram DM, or by email at [joe@deathmancer.com](mailto:joe@deathmancer.com).

### PROTOTYPE BALANCE

Bane has a strong Balthazar interaction that I will leave you to discover ;). If it starts taking over, treat Bane as applying to Heroes only, not Legendary Heroes or Commanders.

Inversion is probably too swingy in this prototype. For first games, remove it. If testing later, try +1.0 multiplier / +6 score for Archimedes / Balthazar, and vice versa.

### PROTOTYPE TO PRODUCTION

Ivory Graphics, our UK prototype printer, has done a lovely job getting this first physical version into the world. The prototype is here to show the gameplay rhythm, table feel and visual direction. For final production, we are planning more premium and properly deluxified treatments.

### FINAL PRODUCTION TARGET

Core Game: 310gsm black core cards, linen finish, rounded corners, FSC-certified materials, premium telescoping box with matte lamination and gold foil logo/emblem, 2 punch-card sheets with 8 damage tokens, larger full-colour folded rule leaflet, and shrink wrap.

Deluxe Edition: Gatekeeper and Chronos expansion decks for 3-4 players, matching premium card stock, larger FSC box with custom insert, 48-page A5 art and lore book, 6 A6 character art prints, engraved resin D6, stitched neoprene playmat, and damage token punch cards.

The prototype copy is intended to demonstrate gameplay and visual design. Final production materials and finishes will be upgraded to the specifications above.

Thank you again for putting time, care and public attention into the game. A good showcase or review at this stage really can make a difference, and I am grateful for the craft that goes into doing that well.

WITH THANKS,  
JOE GREEN
